## Gazipur Digital University Condemns the Ongoing Genocide in Gaza

Gazipur Digital University, 7 April 2025

Gazipur Digital University strongly condemns the genocide in Gaza, carried out heinously and unapologetically by the Israeli forces and their allies. We stand against the killing of innocent civilians in Gaza, which is not an act of defense by Israel, but a systematic extermination of people under occupation. The destruction of hospitals and schools, along with the killing of innocent women and children, bears witness to one of the cruelest chapters in the history of mankind. Gaza has become the graveyard of the innocent.

The indifference of powerful nations toward Gaza and their support for these crimes calls for global accountability. We firmly believe that the humanitarian crisis in Gaza demands immediate and sincere attention from the international community. We urge the global community to come together to put an end to this barbarism and stand in solidarity with the innocent people of Palestine.

Md. Shahidul Islam
